

NOV. 21, 2024

## **I-80 Bridge Work Over Midland Avenue begins this week**

**Traffic shifts:** Expect ongoing traffic shifts and overnight lane closures on both I-80 and Midland Avenue as bridge work is completed.

**Noise alert:** Crews will be working day and night to remove the existing bridges, which may generate noise. Demolition is expected to last approximately three weeks. IDOT appreciates your understanding as the demolition process is completed as quickly and efficiently as possible.

This project is part of IDOT's larger plan to reconstruct 16 miles of I-80, enhancing safety, reducing congestion, and improving travel times.

**The new bridges over Midland Avenue are expected to be complete in 2026.**
